Robert,

Tf you look at US in June there is small negative for Effex. This was a retro correction to bring all Effex income to the \$21 per mil rate so that rate is what we are showing since the project began.

Joe,

I don't have Baruch's phone number. I may have to call him from the office tomorrow.

I hope to be in on time for the 10am call. If I'm delayed I'll call in from my car.

This is what we are planning on executing with Datami. My understanding is that we were not operating under a signed agreement up to now. Your understanding as well?

There will be no option. No further mention of any option to E&Y.

Re E&Y's request to see the agreement, can we talk about this tomorrow after the UK-US GAAP conference call at 4PM before handing over to E&Y.

Question for Josh – this is \$21/ million. How does that dovetail with what we were recording in April, May, June, July and now?

Robert

John,

Here is the updated version of the services agreement. The word version of the document shows the modifications. The PDF version is for you to sign.

Let me know if you have any questions.

Thanks,  
Alex
